- Upcoming garage sale

Glimpses of the Day!

Life and Death is a part of Brixton!

Bottle Brush and a close-up of its intricate patterns!

Grasstree and a close-up of its flower spike (with an ant)!

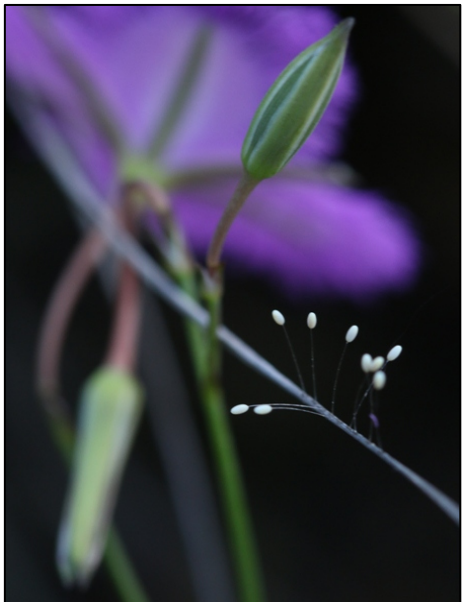

A close-up of Damselfly resting on stackhousia!

Leopard Orchid (This is the first time I have photographed this at Brixton!)

Need further identification-I believe this is some sort of a Pin-Mould!

Top view of a Blue Devil (notice plenty of beetles on one of its flower head)!
