

December 17<sup>th</sup> 2016

Most of the morning was spent on collecting rubbish and some wildlife photography. The long-awaited Brixton Book is finally done and hot off the press copies were shared with our volunteers during the morning tea! The official book launch has been set for February 8<sup>th</sup> 2017. In attendance were: Bob, David, Helena, Kade, Karen, Katrina, Noel, Regina, Ronnie, Subas and Trevor (with Addy & Koda).

Glimpses and Insights

Dr. Subas Dhakal is a Lecturer at Curtin University. He is a photography enthusiast and has formal trainings in Conservation Management (BSc, Missouri Western State-USA) and Environmental Management (MSc, Mahidol, Thailand). After completing PhD in Sustainability Policy (Mandurah, WA) in 2010, he has been working as an academic in the field of sustainable development. A migrant from Nepal, Subas has been affiliated with the Friends of Brixton Street Wetlands as a volunteer/conservation photographer for nearly a decade and currently serving as a secretary of the group.

Who dug these holes? Kade and Regina Explore!

Oy oy, have you seen a naked Gerbera? ☺

Not sure what these BUTCHER BIRDS butchered – but it certainly was not a pretty sight to capture!

Star-struck! Ronnie and Helena appreciating this brightly coloured YELLOW STARFLOWER (*Calytrix* sp.)

Orange Christmas! The CHRISTMAS TREE (*Nuytsia sp.*) flowers against the Blue Summer Sky is Simply Superb!

Giant DRUMSTICKS (*Kingia* sp.) and unique shapes of GRASSTREES (*Xanthorrhoea* sp.) trunks make Brixton Summer, an interesting one!
